Skill Set

Frontend

- HTML
- CSS
- REACT JS
- ANGULAR

Backend

- C
- JAVA
- PYTHON
- MYSQL
- NODE JS

Software Tools

- Jupyter Notebook
- xampp
- Proteus Profession
- MongoDB Atlas

Education Background

- Kongu Engineering College, Perundurai
Anna university
Pursuing BE Electronics and Communication with 8.93 CGPA upto [6th semester]
- John Britto Higher Secondary School
State Board
Completed in 2018 with 91.4%
- Swamy Vivekhanandha vidhyala matriculation School
State Board
Completed in 2020 with 82%

Carrer Objective

My professional goal is to enhance my knowledge and skills in order to contribute to both personal and company growth. I am dedicated to continuous learning and development throughout my career journey.

Area of Interest

- Digital Electronics
- React js
- Internet of Things (Iot)
- Data Communication and Networking

Leadership and Responsibilities

- **OFFICE BEARER** of ECE Association for the year 2021-2022 in Kongu Engineering College
- **JOIN SECRETARY** of ECE Association for the year 2022-2023 in Kongu Engineering College
- **VICE CHAIRMAN** of IETE Student Forum for the year 2023-2024 in Kongu Engineering College

Projects

- Presented a project on the topic **"Smart parking system"** in KPIT SPARKLE at Pune [python, Image Processing]
- Presented a project on the topic **"NODE MCU based Fuel Theft Monitoring System"** at Kongu Engineering College is also a solution for real-time Problems.[C, HTML, CSS, SQL, PHP]

Frontend Projects

- **"Exercise Suggestion Application for Orthotic leg users"** [node js, Angular, SQL, PHP, C]
- "Class Advisor Handling App" using React js
- "Todo list" web Application using Angular.
- "Kongu website" clone using HTML and CSS

Internship

- Company: **The Cloud Company**
- Role: Junior Software Developer
Tech Stacks : TypeScript, Node JS, Angular

Paper Presented

- Presented a paper on "Virtual Doctor" at Karpagam Academy of higher education
- Presented a paper on "Exercise suggestion app for Orthotic leg" using react native in kongu Engineering college

Achievements

- Got first prize in a Project presentation on the topic "Real-time implementation of Virtual doctor" conducted by Electronics and Instrumentation in Kongu Engineering College
- Got shortlisted in the top 100 teams for the project presentation conducted by KPIT SPARKLE on the topic of "Smart Parking System"
- Got second prize in the Paper presentation on the topic "Fertilizer Spraying Bot" at PSG Institute of Technology and Applied Research
